Feb. 3, 2023

On behalf of the Story Construction team, I'd like to congratulate you for being recognized as an outstanding partner on our PE & Competition Center Addition for the Norwalk Community School District.

At the conclusion of each project, our team reflects on the work of each of the project partners. You should be proud that your team stood out in supporting our core values – honest, caring, integrity, hardworking, helpful, and planful. Your team also showed commitment to our Construction Production 2.0 planning system during pre-construction and/or construction phases, which is an important facet to the success of each of our projects.

This was a very challenging project, especially for Jensen's large scope of work, but your team consistently put effort into putting high quality work in place. Jeff Keeling and Alex Bonzer were always responsive members of the project team.

We hope you will share our thanks and appreciation with everyone at Jensen Builders and let them know we truly value your relationship with those on our team.

Sincerely,

**Pat Geary**
